

About the Report

This statement has been prepared already for the fifth time. In preparing it, the Company was inspired by the GRI STANDARDS guidelines. The previous such disclosure was published in March 2019. The organisation discloses the same scope of data (quantity, indicators) and the reporting area is the same. The reporting area is marked on the organisational chart of the Grupa Kęty S.A. Capital Group (page 9, [Report of the Management Board on the operations of the Company and the Capital Group of Grupa Kęty S.A.](#))* These entities are presented in detail in the report as they generate most of the sales revenue of the Grupa Kęty S.A. Capital Group.

The Company reports such information on annual basis, hence, the information contained herein refers to the calendar year 2019. The disclosed information refers to the aforementioned segments, except when the text refers to activities carried out across the Grupa Kęty S.A. Capital Group. The reporting scope is also presented in the GRI Table. The Company has not made any adjustments of the information presented in the previous report.

When preparing the report, the Company applied selected indicators proposed in the GRI STANDARDS. The report was drawn up in collaboration with the internal project team, which featured many employees responsible for the particular aspects discussed in the report, including HR, environmental protection, investor relations, CSR, sales, production, procurement, etc.

Mr Zbigniew Paruch, Chief PR Specialist, is the person supervising the process of the report preparation and the contact person for the report. The dedicated project team, who prepared this report in cooperation with the Management Board of Grupa Kęty S.A., identified the material aspects for the organisation that are presented herein. They were selected mainly on the basis of the CSR Policy, which is the primary document and the Company's philosophy in the area of corporate social responsibility. It has been determining our activities in this area for a long time now. In the report, we focused on those aspects, trying to present them in a credible, transparent, balanced, comparable, accurate and timely manner. When presenting them, we tried to observe the GRI principles:

- stakeholder inclusiveness,
- materiality,
- sustainability context,
- completeness.

The Sustainable Development and Social Responsibility Steering Committee plays an important role in the process of determining the philosophy of activities and areas of commitment. At its meetings, the Committee takes important decisions concerning the operational management of the entire Group in accordance with the vision, mission and values, which are paramount for us. The report was audited by an independent auditor selected by the Company Supervisory Board. The audit covered financial figures only.

*The disclosed information refers to Polish companies only.
